### DEFENSE OF HAYWOOD

Outlined to Jury by Attorney Darrow of Chicago.

### ACCUSATIONS OF ORCHARD

Will Be Denied and It Will Be Asserted That Orchard Killed Steunenberg Because of a Private Grudge—Defendant Will Testify.

Boise, Ida., June 25.—In an address that occupied two sessions of the district court Clarence Darrow of Chicago outlined to the jury the detailed defense of William D. Haywood to the charge that he murdered former Governor Steunenberg. In broad description, it is to be a denial of every material count in the testimony of Orchard with a showing that Orchard killed Steunenberg because of a private grudge due to the loss of a rich share in the great Hercules mine and explanations of the independent circumstances that tend to connect three co-defendants with Orchard's life and operations.

Haywood will take the stand to make personal denial of Orchard's accusations, Moyer may be called to testify solely to events and circumstances affecting the Western Federation of Miners, but Pettibone will not be a witness in this case. Mr. Darrow explained that Moyer and Pettibone must stand trial for this same crime and declared that every lawyer knew the danger, whatever the circumstances, of exposing men awaiting trial under like circumstances.

Mr. Darrow denied the existence of the great conspiracy to murder alleged by the state with Orchard's testimony as a basis; denied that the federation was anything but an earnest fighting labor organization with higher wages, shorter hours, tolerable working conditions and the care of its members and their wives and children as its high and only motives; denied the intimacy with the three co-defendants that Orchard laid claim to; denied the several conferences and conversations that Orchard swore to; denied that Orchard had ever committed many of the crimes he had boasted of; and promised to make proof of his contentions with many of the men named by Orchard when on the stand and many witnesses of creditable character not connected by any tie with the federation or its leaders.

Conspiracy is Charged. Mr. Darrow charged that agents of the Mine Owners' association of Colorado and the Pinkerton detectives had joined hands in a conspiracy to destroy the Western Federation of Miners. Agents of the mine owners had, he asserted, committed many minor crimes to discredit the federation and he promised that the defense would show that it was a reasonable inference that they had engineered the Independence depot outrage as an "attempt" that had miscarried into a tragedy. He asserted that this trial was the culmination of the conspiracy to kill the organization by killing the leaders; that the organization and not "Bill" Haywood was on trial and that Harry Orchard under the manipulation of Detective McParland was trying to kill Moyer, Haywood and Pettibone that he might save his own life.

In explanation of the draft for \$100 which Haywood sent to Jack Simpkins on Dec. 21, 1905, Mr. Darrow promised that the defense would show that Simpkins had an expense account for \$222 against the federation and that after Simpkins himself had cashed the check for that amount in Denver he gave Haywood \$100 with the request that he mail it to him at his home in Spokane.

Of the personal relations between Orchard and Pettibone, Mr. Darrow declared that any one could make friends with Pettibone and that Pettibone had fed Orchard as he would "any other dog." As to their financial relations, Mr. Darrow said that when Orchard left Denver for Wyoming he gave Pettibone his money, his Masonic badge and other trinkets and some papers for safe-keeping. From time to time Pettibone forwarded parts of the money to Orchard.

The registered packages that went to San Francisco, said Mr. Darrow, contained the Masonic pin, trinkets and papers, and the money that Pettibone sent to Orchard at San Francisco was sent in a manner and under assumed names that Orchard had directed and suggested in a telegram he sent to Pettibone. Use of assumed names, counsel declared, was a common practice among the union miners of Colorado, made a stern necessity by the blacklisting of union miners whom he declared had been abused, hounded, denied justice and driven from the state.

Mr. Darrow said the defense would probably not undertake a showing as to the unsigned letter received by Orchard at Caldwell jail—the letter that said "that" had been sent to "Jack" on Dec. 21, and that Orchard swore Pettibone wrote—and at the close both sides would probably argue their

respective constructions of it. The defense promises, unless cross-examination is exceptionally long, to make all of its proof within seven or eight days.

Banker King in Prison.

Leavenworth, Kan., June 25.—Charles C. King, a banker of Yankton, S. D., was brought to the United States penitentiary here to serve five years for violation of the banking laws.

### BUILDING COLLAPSES.

Four Persons Killed and Death List May Be Increased.

New York, June 25.—A four-story building at the corner of Lafayette and Walker streets collapsed early Tuesday morning. Three or four families were living on the upper floors and firemen are searching the ruins for those believed to have been killed. Herman Lintig, who conducts a saloon on the ground floor of the building, and some of the tenants are known to have escaped.

The police announced that eight people, members of two Italian families who lived in the building, were in the ruins. It has not been ascertained whether they are dead or alive. The two families lived on the third floor. Two families on the second floor escaped.

The police announced that when the building collapsed there were eighteen people in it. Seven are known to have escaped, two have been rescued and nine are supposed to be still beneath the ruins.

George Tarchino, nineteen years old, and his sister Mamie, fourteen, were taken from the ruins. Both were alive, but badly injured.

The police fear that most of the nine persons still beneath the ruins are dead. It will be several hours before the work of rescue is completed.

Four persons are known positively to be dead. They are two infants whose bodies can be seen, and a man whose body is known to be in the debris. Another infant still alive has been located by its moans. Four members of the Tarchino family, father and three young children, are thought to be dead in the ruins. Only one dead body, that of a man, has been recovered.

### MOTHER AND SON KILLED

Struck by Lightning in the Yard of Their Home.

St. Paul, June 25.—Mrs. Clara N. Lemon, wife of Dillon Lemon, a clerk in the Minnesota Transfer office, and her son Clarence Loraine Lemon, aged fourteen, were instantly killed by lightning in the yard of their home, 1781 Van Buren street.

The mother had been cleaning house during the day and fearing rain from the threatening clouds was gathering clothes on the line to take into the house. The last article to be taken in was a piece of carpet. The carpet had been thrown over two wire clotheslines about five feet apart, stretched from two oak trees to a corner of the house. Mrs. Lemon's two children, Clarence, aged fourteen, and Mount, aged twelve, were playing under the tentile covering which the carpet made. She called the boys to help her take in the carpet and they came from under the shelter ready to help pull it off the line.

The mother was standing near a tree and under the clothesline. Clarence was a few feet away and under the same line, while the younger son was six or eight feet to one side. Two bolts struck the trees and mother and son received a shock.

The younger boy was not hurt.

### ONE KILLED AND TWO HURT

Runaway Freight Cars Crash Into a Work Engine.

St. Paul, June 25.—Seven freight cars ran away from Rice street to the union depot yards, killing a switch-tender and dealing severe injury to the engineer on a work engine. A spectator of the wreck was also painfully injured.

The switchman, Adelbert Soper, was killed instantly on the tracks at East Sixth street, while the engineer, George R. West, got caught in his engine at the foot of John street. The runaway cars crashed into the locomotive, driving a string of ten cars in front with such force that one of the cars shot over a bank and into the street at Broadway. Ed Johnson, the fireman on the wrecked engine, had a narrow escape. He heard the cars coming and jumped, sustaining only a few bruises.

Fire caught in one of the freight cars in which there were barrels of oil. The firemen extinguished the blaze without great difficulty. The runaway cars traveled about two miles.

### BATTLE WITH MOONSHINERS.

Asheville, N. C., June 25.—The party of revenue officers who had a fight with moonshiners in Stokes county on Friday have returned here, having captured thirty-five moonshiners and destroyed thirteen illicit stills. The officers state that between 300 and 400 shots were exchanged with the moonshiners.

### ATTACK THE EMPEROR

Manifestoes Issued by Members of Russian Duma.

### BREACH OF FAITH CHARGED

Czar Accused of Trampling Upon the Rights of His People, Who Are Summoned to Continue the Struggle for Liberty by Force.

St. Petersburg, June 25.—The Social Revolutionist and Group of Toil members of the late parliament, numbering 139 deputies, have issued their anticipated manifestoes summoning the people to continue by force the struggle for land, liberty and popular representation. The documents, which proclaim that parliament persisted in defending the people's rights, are remarkable for the fact that the emperor for the first time is attacked by name for breach of faith, the revolutionary proclamations having hitherto attributed all sins to the government on account of the lingering sentiment of loyalty to the emperor among the peasant masses. The draft of the proclamation of the Social Revolutionists, of which the revolutionary presses are now printing thousands of copies and with which the manifesto of the Group of Toil is practically identical, is as follows:

"Citizens—You sent us to fight for freedom, for the rights of people for land and liberty. The duma majority was oppositional. It rejected laws increasing the power of the government bureaucrats, it demanded an accounting of repressions of peasants and workmen and of bestialities in prisons; its committees elaborated many laws and projects covering the most important needs of the people and its agrarian committee accepted the principle of the compulsory expropriation of land.

"The radical deputies made every effort to keep in touch with the people, but the government used unprecedented measures to prevent this. Our letters to the electors were confiscated, our messengers frequently were arrested, our papers were stopped and the editors who were members are now to be prosecuted.

### Lawlessness of Authorities Protected.

"Under the perpetual threat of dissolution of parliament the moderate section of the duma abated the demands of the people, but the government replied with an uncompromising refusal and took under its protection the wildest lawlessness of the local authorities.

"The government dissolved the duma because it needs an obedient duma that will support the interests of the aristocrats.

"The emperor did not hesitate before a violation of his manifesto of Oct. 30 giving the fundamental law and his solemn promise given at the winter palace to the deputies of the first duma to defend the liberties granted to the people. He announced before the whole people that the election law would only be modified with the assent of the duma, but now without the permission of parliament the people's rights are trampled upon and the government, relying on bayonets, openly pursues a course of forcible violation of the law.

"The new election law limits the rights of the peasants and workmen and increases that of the land owners and merchants. The representation of Siberia, the Caucasus and Poland are decreased and some parts of the country are entirely disfranchised, and the minister of the interior and the governors are given great powers to manipulate elections. The third duma will not include defenders of the interests of the proletariat.

"Citizens, after a long struggle, in which innumerable victims fell, the people forced the government to convolve the duma. When you elected us and sent us to struggle for land and freedom we did not conceal from you that if the duma were not supported by the people it would be powerless. The government will yield only to force. Only through a steady, organized struggle will the people conquer their rights."

The manifestoes are regarded as being second Viborg addresses, but they lack the authority given to the latter by the participation of an influential party, the Constitutional Democrats.

### ACCUSED OF CONSPIRACY

Ten Prominent Citizens of Colorado Arrested.

Denver, June 25.—Ten prominent citizens of Colorado have been arrested in connection with the indictments made by the special grand jury. The charge against them is conspiracy to defraud the government under the coal and timber laws.

Of the seventy-three persons indicted by the grand jury fifty-five individuals are charged with conspiracy to defraud the United States under the coal and timber laws. The persons come from six different states.

### IN TRIAL OF JUDGE LOVING

Prosecution Rests and Defense Begins Its Case.

Houston, Va., June 25.—The trial of Former Judge W. G. Loving for the murder of young Theodore Estes, a sequel of a buggy ride which Estes took with Loving's daughter, moved rapidly Monday and when court adjourned for the day the prosecution had rested and the defense had begun its case. The progress in the trial was remarkable. Before adjournment of the morning session a jury had been secured, mostly middle-aged men, and all but three of them married; eleven of them being farmers, the lone exception being a merchant.

The taking of testimony began upon the reconvening of the court and late in the afternoon the Commonwealth rested its case and Judge Loving, whose defense is the unwritten law, had taken the witness stand in his own behalf.

The widespread interest in the case was manifest. A large crowd was present but perfect order was observed.

The plea of the defense will be that the victim of the tragedy had taken Miss Elizabeth Loving, the nineteen-year-old daughter of the defendant, out for a buggy ride on the evening prior to the killing and had with the aid of drugs maltreated her.

Washington, June 25.—The Home Savings bank of this city reported to the police that while Roscoe C. Bangs, clerk of the bank, was returning on a street car from the treasury department to the bank he was robbed of a pouch containing currency, checks, etc., aggregating \$3,625.

but that the effects of secular cooling of the globe are insensible. If I am not entirely mistaken, I have shown that the earth, so far from contracting, may be slightly expanding. In any case, earthquakes and volcanoes as well as mountain formations in general, depend upon the secular leakage of the ocean bottoms.

"It seems to be clearly proved," said Dr. See, "that the earth is not contracting, as heretofore held by men of science, but that the effects of secular cooling of the globe are insensible. If I am not entirely mistaken, I have shown that the earth, so far from contracting, may be slightly expanding. In any case, earthquakes and volcanoes as well as mountain formations in general, depend upon the secular leakage of the ocean bottoms.

The great earthquake and volcanic belts are along the shores of continents or in the sea, and a study of the ocean depths shows that the earthquakes are worst where the sea is deepest and the shore is steepest. The land is often uplifted by earthquakes and the adjacent sea bottom sinks, which means that lava is being expelled from beneath the sea and pushed under the adjacent land.

"All the great mountain chains have been formed by this process, and hence the exact parallelism to the sea-shore, known to every schoolboy, but not heretofore understood by geologists. So long as we did not know the cause of mountain formation or erroneously attributed it to the secular cooling of the earth we could not make any advance in the analysis of earthquake causes, but now that earthquakes are proved to be due to the leakage of the ocean bed, necessarily resulting from the great depth and pressure of water upon it, we are in a position to make progress.

"We know that cities on the coasts of deep seas are always unsafe, and therefore their houses should be constructed to withstand earthquakes, and means should be provided for the extinction of conflagrations. If the people of San Francisco had possessed our present knowledge nearly all the loss sustained in the earthquake could have been prevented. California today would have been better off by some \$300,000,000, and Stanford university would not have suffered the ruin which has been so deeply regretted.

"Knowledge of the laws of nature does not enable us to repair damage already done, but it enables us to guard against a repetition of the disaster and is therefore most useful to the people and to the state. If a repetition of such disasters can be prevented in future there will be much to console those who suffered so heavily in the great earthquake of April 18, 1906."

## WHERE A MARKET DAY SUCCEEDS

Osakis Sets Good Example of Way to Make a Market Day a Great Success

### MAKE IT A BARGAIN DAY

Merchants Advertise Special Snaps for That Day to Induce Farmers to Come

The Osakis Review of last week contains a full page advertisement of their second Monthly Market day which occurs tomorrow, Wednesday, June 26. The advertisement, besides the announcement of the market day, which includes a free band concert and the services of an auctioneer, contains the advertisements of various merchants, 23 of whom advertise special bargains for that day. There is a grand ball advertised for the evening. The plan of having especial bargains offered in all lines of merchandise appears to be a good one and would, it seems, do much to bring in a large crowd of farmers.

Where it has been tried this plan of special reduced prices for that day has done more than the offering of prizes to bring in a large crowd of farmers. The farmer thinks, "Well, I have little chance to get a prize if I take in my stock, and I will have to bring it back home if I do not sell it." Every farmer, no matter how poor or how little he has to sell or buy will profit by this method of conducting the day. A special offer on produce, not perishable, for that day, would also be a drawing card and has been proven.

#### The Magic No. 3

Number three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Mo., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best on earth for stomach, liver and kidney troubles, by H. P. Dunn & Co., druggist. 50c.

### SCHOOL OF FORESTRY

First Ever Held in the Northwest to be Sent Out by State University This Year

Cass Lake Voice.—The state forestry board will hold a meeting at Itasca State Park June 26. Under the law passed by the last legislature the state board is given control of the park and an appropriation of \$35,000 was made for the purchase of additional lands. There is considerable private property still within what has been designated as the park limits and the board will purchase this as far as the money will go. The work of surveying the land to be purchased and of sealing the timber will be done by students of the state university. Two thousand dollars a year has been set aside by the university for the establishment of a summer school of forestry. A dozen university students will leave Minneapolis for the park within a few days to form the first school of forestry ever established in the northwest. They will be in charge of Mr. Cheney, assistant to Prof. Greene of the forestry department of the university. The school will hold its sessions at the old lodge building and the students for the most part will live in tents pitched in that vicinity.

### HURT IN RUNAWAY

Mrs. Cora Cook and Her Sister Hurt by Being Thrown From Buggy

This Morning

Mrs. Cora Cook, widow of the late Frank M. Cook, and her sister Miss Alice Palmer were shaken up badly by being thrown from a buggy this morning. They were being brought down to the 5:45 train to go to St. Cloud, where Mrs. Cook intended attending summer school and Miss Palmer went to visit friends, when the team became frightened on North Braadway and overturned the rig. The occupants were badly bruised and shaken up and were taken to their homes and Dr. Batchelor summoned. He states that there were no serious injuries sustained by anyone in the rig.

### BUSINESS MEN

Open the Season for the Church League This Afternoon With Warm Game

### ANOTHER GAME TOMORROW

Owing to Endeavor Convention V. M. C. A. Play Instead of Presbyterians

The church league started the season this afternoon in a blaze of glory, the pastors of the city playing the business men. The game was gotten up on a few hours notice and is in progress at the time of going to press.

Owing to the Christian Endeavor convention which is in session at the People's Congregational church the Presbyterians tomorrow night. There will be a game, however, between the Catholic team and the first V. M. C. A. team. Both organizations have strong teams and will put up a good game.

The board of managers of the Church Baseball League met at the Y. M. C. A. last night and made up the schedule for the season.

The constitution which was adopted last night by the board of managers is complete and comprehensive, though brief, and provides that the managers of the several teams shall compose the board of managers, who shall have general supervision of the league and whose decision on matters of construing the constitution and by-laws shall be final. The league also has the usual officers.

The objects of the league, as set forth in the constitution as adopted, are "To encourage active interest in the work of these institutions." Also "To maintain a high standard of honesty, courtesy and manliness in athletic sports."

### CONVENTION OPENS TONIGHT

The Christian Endeavor Convention will Hold First Session in the People's Church

The convention of the Central District of Minnesota of the Christian Endeavors will hold its first session in the People's church, East Brainerd, this evening. The address of welcome will be delivered by Rev. J. E. Berry, the pastor of the church and it will be responded to by Rev. C. H. Fleming, of Long Prairie. There will also be an interesting address on "What the C. E. is Accomplishing Throughout the World," by Miss Lucy Gundlach, of St. Paul. There will be a song service at 7:30 to continue for half an hour prior to the address of welcome. All Brainerd church people are invited to attend.

"Here it is: 'Richard Croker, who won the English Derby recently, is a strange character. As a poor boy he went to America from Ireland and made a fortune in the mines. Then he organized a political party to overthrow the corrupt leader, Tweed, to whom he was related. After holding many political offices he incurred the ill will of the Democrats, who feared that he would become a dictator, and he was overthrown by a younger set, of whom Roosevelt was one. This destroyed his chances for the presidency and induced him to sell most of his property and to return to his native land, where he devotes his time to breeding horses. His former home in America, Tannamany, in the state of New York, is occupied by his son, under whose leadership the party which he organized is still conducted in the hope that the founder may be induced some day to return."

### MUSIC AND DRAMA

Lew Dockstader, minstrel, philosopher, good fellow, original "Hello Bill" is quoted as having said of minstrel shows:

"Deliver the goods; that's the slogan. If you've got the right sort of entertainment, clean up-to-date, good singers, good music, good reputation, you'll get the crowd. I'll be dead and you'll be dead and your son will be well on toward the happy hunting grounds before minstrelsy begins to decline. The business is just in its infancy. There'll always be minstrel shows, and they're getting better every year, too."

Here you have Dockstader's business creed—a creed that has won him both fortune and honors. Dockstader leads in his profession today. The genial Lew and his big organization come to the opera house Friday, July 5th.

### WILL DOUBLE TRACK

Report That Great Northern and Northern Pacific Will Use Tracks Jointly

Fergus Falls, Minn., June 24.—Reports of impending changes in the railway map of this locality are being circulated here. The latest reports are to the effect that instead of connecting with the Northern Pacific branch line, the main line of the Northern Pacific will be extended parallel with the Great Northern from St. Cloud to this city, the two roads forming a double track and being operated jointly by the two companies.

The Great Northern is almost an air line from this city to St. Cloud, and a Northern Pacific track paralleling it and then striking northward by way of the Pelican Rapids line and its present northern line, would give the Northern Pacific a direct line to the Canadian border and place that road in a position to compete for the cream of the Canadian traffic generally.

The Northern Pacific has just ordered the construction of a 12-stall round house at Lake Park, directly north of Pelican Rapids, and has arranged for the construction of side tracks there sufficient to accommodate 1,800 cars.

There seems to be no reason for these improvements unless this plan is contemplated, as the Northern Pacific company is establishing immense car shops and a general headquarters—a real railway city—at Dilworth, only twenty-five miles west of Lake Park. A Northern Pacific line paralleling the Great Northern to this city and then turning northward would relieve the congestion of traffic that was felt so severely on both these roads, particularly during the last winter.

#### Remarkable Rescue

That truth is stranger than fiction has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c and \$1.00, at H. P. Dunn & Co., drug store. Trial bottle free.

#### THE RISE OF RICHARD.

German Paper's Queer Biography of Ex-Boss Croker.

"Don't look in the guide book for all things worth seeing," writes a young woman from Germany, according to the New York Tribune. "The best thing we have seen since we left home we shall bring with us and shall do so without fear of the government's taking preventive measures. It is not an altarpiece nor a statue, but an extract from a German paper.

"Here it is: 'Richard Croker, who won the English Derby recently, is a strange character. As a poor boy he went to America from Ireland and made a fortune in the mines. Then he organized a political party to overthrow the corrupt leader, Tweed, to whom he was related. #### Changed His Motto.

A southern representative in congress is reported to be of such a persuasive manner that, no matter what party may be in power, he outdoes his colleagues in procuring favors for his constituents.

One afternoon the statesman was met by a newspaper man. "Well, major," asked the latter, "how many appointments and appropriations have you arranged for today? We all know your way of getting everything that you go after."

"Nothing today," responded the representative rather wearily. "My experience this time reminds me of the old Confederate soldier that I knew in Tennessee. I went into this war," said he, "with the motto 'Veni, vidi, vici,' and I came out vice versa."—St. Louis Republic.

## NATION OF IDIOTS PREDICTED

Michigan Doctor's Startling Picture  
Drawn For Charities Conference.

In just 300 years from now every man, woman and child in the United States will be an idiot, according to statistics presented by Dr. J. H. Kellogg of Michigan before the national conference of charities and correction recently held at Minneapolis. Dr. Kellogg allowed no exceptions. He held up the awful future before the conference and unfeelingly flaunted before them the awful vision of an idiotic nation. Dr. Kellogg chose the state of Illinois as a working basis and deduced this startling result:

Here are some of the figures used: Insanity has increased 300 per cent in fifty years. If the present conditions prevail until 1930 there will be five times as many cases of Bright's disease as now, six times as many cancer patients. Within that year 15,000,000 persons will die in the United States. 4,200,000 will be sick all the time, 6,000,000 Americans are sure to die of heart disease. One-half of the sickness, he said, could be avoided by use of proper attention to hygiene.

Dr. Kellogg after presenting in a dazed condition and took a train immediately for the east.

## AFTER DINNER COCKFIGHTS.

Chicago Artist Breeding Roosters For  
This Innovation.

George Ford Morris, the Chicago animal painter, who is now in Lexington, Ky., to make sketches of famous Kentucky saddle horses, is engaged in the breeding of game chickens so reduced in size as to be no larger than pigeons, says a Lexington special dispatch to the New York Times.

This breed of chickens will be used by Morris in "after dinner bantam fighting," which he expects to introduce for the first time in New York in December. His idea is to erect the pit in the center of the table at the end of the feast. He says his innovation is bound to be a popular one.

An Auto Professor. The young king of Spain is extremely fond of his automobile, and, desiring to advance the interests of automobileism in his dominions, he has recently established at the School of Arts and Sciences in Madrid a chair devoted to that subject, saying Youth's Companion. The professor says Youth's Companion is to teach both theory and practice. The course of study includes both manual training and text-book instruction. In recognition of the fact that automobileism is not without its perils to life and limb instruction in first aid surgery is to be given. The professor is also to teach his pupils the law of the road as it applies to automobiles.

## INVESTIGATION ASKED

President Requested to Probe  
Telegraph Companies.

## TO SEE IF A TRUST EXISTS

Many Unions Will Joint in Appeal to  
the Chief Executive—Aid of Federal  
Government Will Be Sought to End  
Telegraphers' Strike.

Washington, June 25.—The Central Labor union of Washington has sent a telegram to President Roosevelt requesting that he institute an investigation to determine if the telegraph companies have entered into a conspiracy in restraint of trade in violation of the Sherman anti-trust law. At the request of the American Federation of Labor similar action, it is said, will be taken by all the leading labor organizations in the United States.

## TO SETTLE THE STRIKE.

Assistance of the United States Government Will Be Requested.

Oakland, Cal., June 25.—President Small of the telegraphers' union has announced that he would ask the aid of the United States government in the settlement of the strike. He said he would appeal to President Roosevelt and members of the cabinet to intervene on the ground that the transaction of business of national importance is being interfered with because of the strike. President Small asserts that when intervention is made by the president and cabinet officials it will be learned that the striking telegraphers are in nowise to blame for the strike.

A telegram was received by General Superintendent L. W. Storer of the Postal Telegraph company in San Francisco from Clarence H. Mackay, president of the Postal Telegraph company. It is in substance as follows:

"While deeply regretting the situation, I feel that our men in abandoning their positions were unmindful and heedless of their duty to the public and the company and guilty of unwaranted action. We shall take a firm stand in dealing with the situation and we are determined to win regardless of the cost. With this in view I hereby approve and confirm the instructions given you by the general manager and in addition thereto you are authorized to say to our loyal men who stand by us in our difficulty that all operators will be paid their regular salary as a bonus and their services will be computed as extra on a basis of seven hours per day or night. Should you deem it wise to do so you may also furnish free meals and lodgings until the return of normal conditions."

## HELD IN READINESS.

Militia May Be Needed to Protect  
Italians in Louisiana.

New Orleans, June 25.—The state militia has been notified by Governor Blanchard to hold itself in readiness to protect the Italians arrested in the Lamana kidnapping case. This order was issued because the prisoners will probably be transferred in a few days from the New Orleans parish prison, where they are considered safe, to St. Charles Parish, where the boy was killed and where the trials must be held. This parish is a rural community with small police protection and within such a short distance from New Orleans that mobs from this city could reach there in two hours.

Although in the city the excitement has subsided, yet the temper of the crowds was shown when about 100 men formed and made threats at the United States customs house against an Italian whose name closely resembled that of one of the murder suspects and who was being quizzed by a police officer.

## LANDING SLIP BREAKS.

Four Persons Drowned and Several  
Others Injured.

Tacoma, Wash., June 25.—Four persons were drowned and a score or more were injured at Stone's Landing by the breaking of a landing slip of the steamer Multnomah, which was taking aboard a picnicking party numbering more than 1,000 persons. The dead are:

Elmer Boden, aged thirty, of Seattle; Agnes Peterson, aged ten, daughter of Peter Peterson; Elmer Oberga, aged four, son of Fred Oberga; Baby Oberga.

The last three lived in Tacoma. The accident happened while the excursionists were embarking on the steamer for their return to Tacoma.

Springfield, Mass., June 25.—The local police have been asked to locate David C. Maroney, conductor of the passenger train that collided with the work train here Sunday night, killing eight men and injuring forty. Maroney has not been seen since a few minutes after the disaster. He appeared at his home in a frenzied condition, told his wife about the wreck and then went out.

Two deaths Monday increased the number of fatalities to eight. Some of the injured are in a serious condition.

## SUIT AGAINST HARRIMAN.

New York, June 25.—A suit has been started in the United States circuit court by Henry M. Walker, a resident of New Jersey, against Edward H. Harriman and other defendants, alleging breach of contract and conspiracy to prevent the construction of the Portland, Nehalem and Tillamook railroads in organization. In his complaint Mr. Walker places his monetary damages at \$500,000.

## ACQUITTED ON BRAIN STORM PLEA.

Duluth, June 25.—Nic Rose, the horse thief who was captured after violent resistance near Deadwood a few weeks ago, is again at liberty. He escaped from the train near Worthington, Minn., while en route to the state penitentiary at Sioux Falls.

Horse thief escapes.

Deadwood, S. D., June 25.—Nic Rose, the horse thief who was captured after violent resistance near Deadwood a few weeks ago, is again at liberty. He escaped from the train near Worthington, Minn., while en route to the state penitentiary at Sioux Falls.

## CHARGED WITH MURDER.

Pennsylvania Man Arrested for Kill-  
ing His Stepdaughter.

Westchester, Pa., June 25.—Irvin Lewis, stepfather of Mary Newlin, aged five, whose body was found buried in a pit in the barnyard at her home near Avondale Friday, was committed to prison following an inquest into the case on a formal charge of murder. Before the inquest Lewis made a partial confession to District Attorney MacElree in which he said the child fell from a wagon shed and was killed. He said he saw her fall and when he went to pick her up she was dead. He feared he might be accused of killing her and he tied a burlap bag over the head and buried the body in the pit in the barnyard.

Coroner's Physician Gifford who made a post mortem examination of the body testified that death was caused by suffocation or asphyxiation. District Attorney MacElree then repeated the partial confession of Lewis and the jury returned a verdict that the child came to her death at the hands of Lewis.

The condition of the body when found and the testimony of the coroner's physician leaves little room for doubt according to the district attorney that the child was buried alive.

## HELD TO BE TOO VAGUE.

Wine Growers Dissatisfied With  
French Premier's Promises.

Argentines, France, June 25.—Marcellin Albert, the "redeemer," arrived here and was cheered by 12,000 persons who had gathered to meet him. He announced, however, that he could make no statement until he had conferred with his colleagues, at which there was much disappointment.

Later, he met the members of the committee and announced to them that the premier had promised if the wine growers would give up their illegal attitude he would release the prisoners, withdraw the troops and take the most lenient view of everything that had occurred and further that the premier had promised to do his utmost to advance the interests of the wine growers.

The committee after a long discussion resolved in view of the unsatisfactory nature of the law passed and the vagueness of the promises made by M. Clemenceau, to continue the movement calmly and peacefully until full satisfaction had been attained. The resolution passed unanimously, M. Albert himself voting in favor of it.

## BEQUESTS TO CHARITY.

Held Up By a Superannuated Horse in  
Chicago.

Chicago, June 25.—A superannuated horse named "King" is the only obstacle in the way of payment of bequests amounting to \$200,000 to charitable institutions made by George C. Watts, a building contractor, who died over a year ago, according to a report made by the executor of the estate to Probate Judge Cutting. In his will Watts provided an annuity of \$300 for the care of the horse as long as it was able to work, and of \$150 thereafter until its death. Like provision was made for the dog, "Billy." The dog died last spring. By terms of the will the property cannot be divided until after the death of the horse.

TO RECOVER DAMAGES.

Proprietor of Restaurant Will Sue City  
of San Francisco.

Washington, June 25.—According to private advices received here the proprietor of the Horse Shoe restaurant, which was attacked during the recent anti-Japanese riots in San Francisco, will enter suit in the state courts of California against the City of San Francisco to recover damages done to the restaurant property. District Attorney Devlin, a telegram from San Francisco says, will represent the Japanese plaintiff in the action.

It was stated at the department of justice that some time ago Mr. Devlin was instructed to offer his services in case suits were entered.

## CONDUCTOR IS MISSING.

Disappeared Shortly After Disastrous  
Wreck in Connecticut.

Hartford, Conn., June 25.—The local police have been asked to locate David C. ## ACQUITTED ON BRAIN STORM PLEA.

Duluth, June 25.—A plea of "brain storm" resulted in the liberation of Edward Duthery of Superior, Wis., who after serving part of a fourteen-year sentence in state prison on conviction of murdering his alleged unfaithful wife in Superior more than a year ago, had his case reopened by order of the supreme court and was acquitted by a jury.

## WANTED NEW ONES.

A traveler putting up at a fifth class hotel brought the "boots" up with his angry storming.

"Want your room changed, sir? What's the matter, sir?"

"The room's all right," fumed the guest scorchingly; "it's the fleas I object to, that's all."

"Mrs. Bloobs," bawled the "boots" in an uninterested sort of voice, "the gent in No. 6 is satisfied with his room, but he wants the fleas changed."—Illustrated Bits.

## THE TERROR'S DINNER

"Rattlesnakes on Toast" Was  
the Cowboy's Order.

## BUT HE MET WITH HIS MATCH

The Promptness With Which the  
Tough Waiter Served the Dish Took  
the Terror's Nerve Away—The Re-  
past and the Final Request.

Away back in 1876 a man named Turpin established a restaurant in Yuma, and among Turpin's original employees was a waiter named Job Straight, who could shoot with great precision, play draw poker with unvarying success and pack eighteen plates of miscellaneous grub upon one bare arm at one time. He could execute all the prevailing melodies either on piano or guitar, and he possessed the most tremendous baritone voice ever heard in Arizona. Why, men sometimes went to Turpin's just to hear Joe deliver gastronomic orders. No perfect description can be given of that voice, however, except to say that at times it really did make things clatter.

Once a fresh young cowboy from near Gila Bend entered Turpin's for a Christmas dinner who took a startling concoction as an appetizer and then dropped thud-like at a table and roughly shouted to Straight:

"Say, there, Baldy! Bring me some grub!"

Job was at first appalled; but, recovering his reserve limit of equanimity, he brushed an imaginary breadcrumb from the frescoed tablecloth and whisked a bill of fare from the variegated castor and placed it before the new young terror of the Bend.

"Take it away!" cried the latter in tones that could give Straight's ordinary, everyday baritone a castle and checkmate in five moves. "I don't want to read your darned old tract. I don't care a darn who came into the world to save sinners. Bring me some grub—g-r-u-b! Grub! Grub! Grub!"

"What do you want?"

"Rattlesnakes on toast! And I want you to hum yourself!"

"What's that?"

"I've given my order, you baldheaded old cigar store sign, and I want you to get a move on yourself, p. d. q. Rattle-snakes on toast!"
